

## 19. Open Data

### Introduction

This category tells people about open data made available by the institution as described by the Scottish Government's Open Data Resource Pack and available under an open licence.

Category Name	Category Description	How to access	Withheld information
<b>Open Access Programme</b>	Institutional procedures to support the Open Access programme, which allows for free, unrestricted access to publicly-funded research outputs as close to the point of publication as possible.	<a href="#">Open Access</a>	
<b>Research outputs and datasets</b>	Research outputs including peer-reviewed journal articles, books and book chapters, are published in the University's institutional repository, Enlighten, along with supporting datasets.	<a href="#">Enlighten</a>	
<b>Open datasets</b>	Statistical information about students, graduates, staff and funded places available at the University.	The University publishes <a href="#">Headcount Student Data</a> about the composition of the student population.  In addition, statistics about students, graduates and staff can be accessed from <a href="#">HESA – Higher Education Statistical Agency</a> .
